

FINE FURNITURE
ARMOUR™

WATER-BASED

Fine Furniture Armour finishes are environmentally friendly and more durable.

FACTORY CONVERSION

Because we are the manufacturer, a custom-built, state of the art production line applies the protective finish at every stage.

FINE FURNITURE ARMOUR COMES STANDARD

All products manufactured after January 1, 2017 use water-based finishes.

24-HOUR STAIN TEST

We tested removing wine, ketchup, juice, yogurt and nail polish remover from the finish using only a cloth dampened with water. Scan to watch the demonstration video.

DISCLAIMER

Fine Furniture Armour resists 99% of common stains and is not liable for stains that can not be removed. Available on all items manufactured after 1/1/17.
